Art Unit: 2815

Claim 1 is objected to because of the following informalities: "integrate" should be ~~intergate~~. Appropriate correction is required.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-14,16,17,19-23,70-82 are rejected under 35 U.S.C. 103(a) as being unpatentable over Horiguchi in view of Watanabe.

Horiguchi teaches all the elements of the claims except a horizontal gate attached to the vertical side gates. Watanabe teaches and suggests a horizontal attaching gate for the purposes of increasing the coupling capacitance. See the abstract for example.

Applicant's arguments filed 6/24/03 have been fully considered but they are not persuasive. Applicant's argument that Watanabe does not suggest a horizontal gate is unconvincing. See figures 10, 16, 19, 22, 31,34,37, 40, 43, 46, and 47 where two vertical control gates and an attaching horizontal gate are clearly shown. See the abstract and column 4 lines 18-21, and column 12 lines 45-50, where it is stated that the two lateral surfaces and top surface of the floating gate are covered by the control gate.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**.

Art Unit: 2815

See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
